

EHL/EFL

Humidity-controlled air inlet

New

An innovative design for maximum comfort

Presenting a totally new design, these air inlets cumulate the aesthetic and ergonomic advantages, whilst benefiting from very good aeraulic and acoustic performances.

Innovative product design

For discrete integration into all window profile sections!

- Fineness and lightness of its lines
- Large choice of colours
- Reduced height
- No visible screws

Intelligent handling of the incoming air

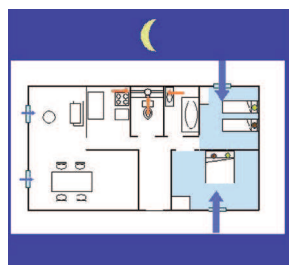

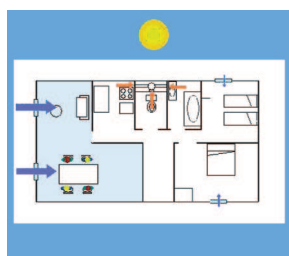

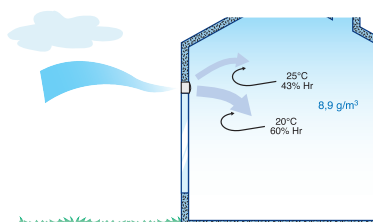

- In each main room
- Depending on the rate of humidity
- Without any electrical power supply
- Progressive closure if the weather is cold or if the heating is increased

Quality and air diffusion

- Orientation of the air jet to the top for users' comfort
- More healthy air: Reduced introduction of dust and pollen
- Good acoustic performances

Versions

	Hygro Range	Fixed Range
Standard 37 dB	EHL S	EFL S
Acoustic 39 dB	EHL L	EFL L

aldes air&people

Dimensions

	EHL S EFL L EFL S	EHL L
L (mm)	418	418
H (mm)	43	45
D (mm)	55	71

Characteristics

- Acoustic performances: 37 or 39 dB (depending on version)
- Compliance with current regulations
 - Certified CSTBat
 - French Technical Report 14/07-1193
 - Meets the thermal regulations for existing buildings within the framework of a humidity-controlled system.

Rapid Installation

Hygro Range:

The BASE allows for pre-fitting the air inlet on to the window. It can be fixed with just 3 screws.

THE TECHNICAL PART is fixed to the base in just one click.

The ATTRACTIVE DESIGN COVER adds trim to the air inlet for a perfect finish.

Fixed Range:

In just one part, the air inlet presents a perfect finish thanks to two integrated SCREW COVERS.
